

**ETFE**

Technical name of TEFZEL® is Ethylene and Tetrafluoroethylene (ETFE). It is not fully fluorinated, ETFE has excellent chemical resistance and can operate continuously at 150 °C.

This resin is the toughest of all fluoropolymers of DuPont and can be applied at film builds up to 1,000 micrometers to provide a highly durable finish.

**FEATURES**

- ◆ Very Durable
- ◆ Good Fire-inhibiting Properties
- ◆ Very Low Vapor Diffusion
- ◆ Ozone Resistant
- ◆ Good Electrical Insulation

**TYPICAL COMPONENTS ARE**

- ◆ Agitators
- ◆ Centrifuges
- ◆ Condenser
- ◆ Pipes
- ◆ Reducer
- ◆ Tanks
- ◆ Actuators
- ◆ Transmission Shafts
